

The Chiropractic Association of Louisiana

Presents

Best Practices for Managing Lumbopelvic Structural Pathology

October 9-10, 2021

About this Program:

This practical and entertaining presentation will discuss the current evidence-based evaluation and management of common lumbopelvic structural pathology. A review of the five commonly overlooked “functional” problems that delay recovery will be discussed. Attendees will leave this class with real-world tools to better manage the most common MSK presenting problems. Some of the topics of discussion will include:

*Practical evaluation and management of lumbopelvic pathology, including: range of motion assessment, physical & orthopedic evaluation, neurologic assessment, functional evaluation, imaging, treatment, rehabilitation and patient education for:

Lumbar Sprain/Strain

Lumbar Spondylolysis & Spondylolisthesis

Facet Syndrome

Pregnancy Related LBP

Lumbar Disc Lesions

FAI

Lumbar Degeneration/Stenosis

Anterior Knee Pain

*Differential Diagnosis of LBP of Sacroiliac Joint Dysfunction, Hip Pathology, Compression fracture, Viscerosomatic referral, and inflammatory arthropathy

* Recognition, functional evaluation and management of Paradoxical Breathing, Spinal Instability, Hip Abductor Weakness, Lower Crossed Syndrome, Pelvic Obliquity and Foot Hyperpronation.

* Risk management issues and ethical conduct for the Chiropractic Office

What About Tim Bertelsman, D.C., CCSP, DACO

Tim Bertelsman, D.C., CCSP, DACO., graduated from Logan College of Chiropractic with honors and has been practicing in Belleville, Illinois since 1992.
