presents  
The 10 Most Common Pediatric Conditions &  
the 7 Most Important Pediatric Techniques  
and  
New HIPPA Laws, How Do You Stack Up?  
May 3-4, 2025***

**About this Program:**

Dr. Rubin's presentation will focus on expanding your effectiveness and capabilities with your pediatric patients. In this comprehensive program, you will learn how to access a child with the 10 most common pediatric conditions, things to look for in adjusting a child with these issues, plus nutritional and/or neurological suggestions. Then Dr. Rubin will cover Webster's pediatric gentle adjusting techniques, giving attendees more confidence in adjusting all ages of kids from newborns, infants and toddlers to preschoolers and school aged children. He will also help you become the expert in detection and correction of subluxation patterns associated with neurodevelopmental disorders. The many facets of the Polyvagal Theory and Neuroplasticity will also be covered, incorporating the latest research in these up-and-coming fields. Attendees will learn how to better assess children on the spectrum as well as other neurodevelopmental disorders and will be able to discuss the neurology of how chiropractic can help enable the brain to grow stronger and have the ability to create new, better, and stronger connections.

Some topics of discussion will be:

**Pregnancy:** Fetal malposition, wellness    **Infant:** Nursing/latching issues, colic/reflux/GI complaints, ear infections  
**Preschool age:** Allergies, Asthma, colds/fever/throat issues  
**School age:** Headaches, neurodevelopmental issues (Autism, ADHD), pediatric sports injuries  
Plus Autism, Polyvagal Theory, and Neuroplasticity

**This presentation includes "live" demonstrations plus hands on technique training**

Dr. Talcott's presentation will be bringing awareness to the ever-increasing number of complaints against doctors, by patients and ex-employees. He will also be discussing what is now required under the 21st Century Cures Act and the No Surprises Act. He will also discuss what needs to be done to prevent a Ransomware attack that can close your office and get you fined by the government for a HIPPA violation. Dr. Talcott will also discuss how to perform a risk analysis and ISAR's, along with discussing how to construct required HIPPA policies to prevent from possible fines and penalties. He will also help prepare doctors to avoid being ravaged by Medicare demands to return money paid to them by Medicare. This presentation is a must to help protect your office.
